

GreenGuard

Revegetation

GreenGuard biodegradable tree guards are innovative, durable and weather resistant. Made in Australia from a plastic free, proprietary board they will bio-degrade naturally in the field thus no requirement to remove the guards and no risk of pollution of waterways and wetland environments.

Range of sizes

GreenGuard is available in a range of sizes making it an ideal alternative to many common fluted guards and cardboard carton guards. The triangular and tube guards can be installed with a wooden stake or bamboo canes, the carton guards require two bamboo canes.

- Easy pop into shape for quick installation
- Bio-degrades in the field; zero plastic content
- Ventilation & UV holes for improved growth rates
- Moderate protection from browsing animals
- Use with jute or paper tree planting squares for additional weed control
- Transported flat-packed for easy handling
- Proudly 100% Australian made
