

GreenWell™

Urban Tree Planting

Efficient and Eco-Friendly Watering

GreenWell provides a quick, simple, and affordable way to deeply water plants, especially during hot, dry weather when it matters most. It saves time and water by delivering it efficiently to the plant base, reducing waste and supporting healthier growth. GreenWell also keeps water, mulch, and fertilizer exactly where they're needed, while preventing scatter from wind, rain, or birds.

Versatile and Practical Design

GreenWell is easy to install, move, and reuse, making it perfect for both new and established trees. It prevents water runoff, making it ideal for sloping ground or hard-to-wet soils. With a capacity of up to 26 liters (standard) or 50 liters (large), it ensures water reaches the roots. Its neat, professional look is great for lawns and public spaces, while also protecting tree trunks from trunk rot and whipper snipper damage.

- / Height: 190mm
- / Top Diameter: 430mm
- / Bottom Diameter: 495mm
- / Holds up to 26L (S) or 52L (L) of water
