

# Willunga

## TREE GUARDS

Sturdy, fast and easy to install

**Arborgreen**  
LANDSCAPE PRODUCTS

### INSTALLATION GUIDE

- 1) Insert hardwood stakes\* (or star-droppers) into ground.
- 2) Join the 2 halves of the Willunga guard together with the supplied joiners (stainless steel cable ties can also be used).
- 3) Secure the guard on both sides to the stakes with stainless cable ties.

\*typically 38x38mm x 1.8m hardwood stakes are used, stock code PL383818E

#### Willunga dimensions:

1600mm high x 700mm diameter,  
stock code: TGWIL1600

< The included clips can be used with Tek-screws into hardwood posts or fitted to star-droppers with supplied bolts. Alternately stainless steel cable ties are used to fix the guards together and to the post.
